I take pleasure in presenting to the Members of the Legislature, municipal officials and other interested parties, the 1985 edition of the Alberta Municipal Assistance Programs. This publication is an inventory of grants and cost-sharing programs implemented for the benefit of Alberta Municipalities and other local government entities.

The material deals primarily with provincial financial assistance programs, however, certain federal programs have been included, particularly those which are co-ordinated by the province under agreement. This year, for the first time, a separate table of contents has been provided for grants available to community associations, organizations and other interest groups.

Basic information is provided in a concise format and the departmental contact is identified for each program. This publication is for reference purposes only and is not intended as a substitute for the Provincial Statutes, regulations or specific instructions and explanatory material issued from time to time by the various provincial government departments.

This year marks the eighth consecutive year of publishing and the ninth such issue since its inception in 1976. The material was compiled by the staff of the Municipal Services Branch, Alberta Municipal Affairs. Municipal Affairs acknowledges the valuable contribution all departments have made over the years and expresses its appreciation to all officials for their time and effort expended to complete this publication.

FOREWORD

This 1985 revised listing of Alberta Municipal Assistance programs replaces the 1984 publication in its entirety. This revised edition reflects any changes, additions or deletions to the provincial assistance programs. These additions and deletions are reflected in appendix "A" and "B". Program transfers to other or new departments and consolidations of programs are reflected in appendix "C".

The table of contents in this issue has been divided into two sections. The first section is a listing of all the programs. The second section is a listing of programs available not only to municipalities but also to community associations, organizations and other interest groups.

The various provincial grants and cost sharing programs have been compiled in this publication to provide municipal officials, government employees and the general public with concise descriptions of the numerous programs currently available to Alberta Municipalities, to other government entities and to organizations undertaking co-operative projects. Also included in this survey of available programs are those jointly funded by the Federal and Provincial governments.

The information contained in this booklet is **NOT** a complete inventory of the provincial assistance programs as programs for individual or non-government organizations have been specifically excluded except for some multi-faceted programs as outlined under Alberta Recreation and Parks. The primary purpose of this publication is for reference only with more detailed information to be obtained from the contact person(s) listed on each program.

ALBERTA
ECONOMIC
DEVELOPMENT

RAILWAY FACILITY RELOCATION POLICY

OBJECTIVES -- The Province recognizes the potential developmental benefits, to Alberta's smaller cities, of access to centrally located railway land no longer required for railway operating purposes. In keeping with this recognition, the Province wishes to assist these cities in carrying out railway facility relocation projects.

BACKGROUND -- In 1975, the Province of Alberta, jointly with the federal government, sponsored railway relocation studies undertaken by Alberta cities under the Canada Rail Relocation and Crossing Act. In October, 1977, the federal government withdrew from further funding of studies and announced it had cancelled any consideration of assisting actual rail relocation projects.

The Province's involvement in railway relocation studies was shortly thereafter expanded, including an ongoing commitment to assist the implementation of viable railway relocation projects.

ELIGIBILITY CRITERIA -- The Railway Facility Relocation Policy will apply to Alberta's smaller cities who are able to demonstrate that:

1. Substantial quantifiable benefits to the urban development objectives of the city can be achieved through release of land presently occupied by railway facilities, and
2. The potential value of lands released through railway facility relocation project will make a substantial contribution to the cost of the relocation project, and
3. Existing railway facilities create a significant barrier to the provision of efficient transportation services within the city, and
4. In the view of the affected railway, the relocation of facilities is feasible in light of system-wide operational requirements, and
5. Existing railway rights of way provisions through the city are maintained under the proposed railway facility relocation project.

The Railway Facility Relocation Policy is not designed to apply to the two largest cities of Alberta, who generally have the in-house planning and financing capability of dealing with such projects, nor to Alberta towns who would not normally be able to meet the eligibility criteria of this policy.

Notwithstanding the above, the Province may, upon specific project application, determine this policy, or portions thereof, to apply to a larger city or town if such a project meets the eligibility criteria and could not proceed without the Provincial involvement provided by this policy.

THE DELIVERY PROGRAM

Part I - Studies - The Province will contribute 50% of the cost to a city, of carrying out an approved railway facility relocation feasibility study. Involvement of the affected railway, the relevant and/or local planning authority must be solicited and obtained.

Part II - Negotiations - Where the railway relocation feasibility study determines the proposed project to be viable, meeting all eligibility criteria of this program, the Province will assist the city in negotiating the concurrence of the affected railway.

Part III - Relocation Projects - Where the joint province/city negotiations with the affected railway have resulted in a mutually acceptable plan for railway facility relocation and for the sharing of costs thereof, the Province will assist the city in financing the implementation of the project. The Provincial financial contribution will be 50% of the city's costs in implementing a railway facility relocation project. The 50% Provincial cost sharing, while considered level of city and Provincial commitment to a project, may vary from project to project on the basis of the specific needs of a city and the estimated timing of returns from sales of lands released by a relocation project.

Subject to the preparation of adequate roadway and public transportation plans, and the preparation and guarantee of a suitable land-use plan for lands released by the project, the Province will jointly with the city, take an investment position in the project. The eligible urban municipality shall establish a mechanism to implement the project and to dispose, by sale or lease, of released lands.

First right of refusal on the purchase or lease of such lands shall be offered to the city and the Province, but in all cases, sales or leases shall be at the then prevailing market rates.

Revenues from the sale or lease of lands released by a railway facility relocation project will, after meeting the administrative costs of such transactions, be distributed between the city and the Province in the same ratio as each contributed to the cost of the project.

FINANCIAL ASSISTANCE FOR WATER MANAGEMENT

OBJECTIVES -- To provide assistance to local authorities for the enhancement and regional development of the province's water resources and to provide corrective measures where water, in its natural state, creates conditions adverse to the public interest.

ELIGIBILITY -- This program is available to all Alberta municipalities.

DESCRIPTION -- The project must be initiated by a local authority, and a need for such a project must be established. The project must be in the public interest and provide benefits to the general public or protect public investment. Detailed project planning and consideration of all aspects of water resource and environmental management must precede implementation. The local authority initiating the project must accept the responsibility for land acquisition, and operating and maintenance costs.

Agreements are entered into between the Minister of Environment (under the Water Resources Act) and the local authorities. Projects are funded on the basis of the budgetary priority for water management established by the government.

FINANCING -- Payment is usually 75% - 25% basis (Government funding up to 75%), however this may vary depending on the type of project and the amount of public benefit derived. The local authority receives payment upon submission of an itemized account of expenditures, which can be substantiated by documents at the local authority's office.

ALBERTA MORTGAGE AND HOUSING CORPORATION

COMMUNITY HOUSING PROGRAM

OBJECTIVES -- To provide adequate rental housing for low and moderate income families unable to secure affordable private-sector accommodation.

ELIGIBILITY -- The sponsor of a Community Housing Project is normally the local municipality. The need for community housing in smaller municipalities is determined by the feasibility study undertaken by the Corporation.

DESCRIPTION -- Management and tenant selection are delegated to a local Housing Authority whose members are recommended by the local council, a Provincial and sometimes Federal nominating committee, and appointed by Provincial Ministerial Order. Priority of allocation of units to tenants depends on need as determined by income, assets, housing condition and length of time on the waiting list. The municipality applies directly to the Alberta Mortgage and Housing Corporation. The Alberta Mortgage and Housing Corporation reviews and researches submissions, and the Alberta Mortgage and Housing Corporation Board approves within the framework of the annual budget.

As an alternate delivery method to Community Housing, Alberta Mortgage and Housing Corporation may provide affordable accommodation in private-sector buildings through a rent supplement. Rent supplements may be used in designated communities where there are high vacancy rates in the private sector and a need for affordable accommodation by low-income families. Rent supplements are funded in the same way as Community Housing.

FINANCING -- The Alberta Mortgage and Housing Corporation is the major developer of Community Housing, supplying 100% of upfront capital costs for projects, through debentures written with the Alberta Investment Division of the Alberta Heritage Savings and Trust Fund. Canada Mortgage and Housing Corporation provides a write down of interest to 2% under section 56.1 of the National Housing Act and the balance of the costs (including amortization over 35 years) are shared between AMHC and the municipality.

PROVINCIAL BUDGET	1984/85	1985/86
	$7,200,000	$3,500,000

TIME FRAME -- This is an ongoing joint program of the Federal, Provincial and Municipal Governments.

FURTHER INFORMATION -- Contact the local housing authority or an AMHC office at any of the addresses listed in the back of this section. Applications for new projects should be directed to AMHC.

THE ALBERTA INDUSTRIAL LAND PROGRAM

OBJECTIVES

1. To help municipalities provide an adequate supply of serviced land for industrial purposes, at reasonable costs.

2. To assist regional communities in attracting suitable industries.

3. To support balanced industrial growth across Alberta.

ELIGIBILITY -- Alberta municipalities demonstrating a need and demand for industrial land.

DESCRIPTION -- This program is designed in two stages: Land Assembly and Land Development. It is intended to provide assistance to communities wishing to develop land or hold land for future industrial development. It complements the government's position that the decentralization of industry is essential to achieving a balanced economic growth within the Province.

FINANCING -- Alberta Mortgage and Housing Corporation finances 100% of the capital costs through funds provided by the Alberta Investment Division of the Alberta Heritage Savings Trust Fund.

1. Land Assembly: Alberta Mortgage and Housing Corporation secures and holds titles to suitable lands, in accordance with the following guidelines:

   a) An agreement is made between the Corporation and the municipality whereby Alberta Mortgage and Housing Corporation will hold title to the land for the municipality.

   b) At any time during the term of the agreement, the municipality may request and obtain from Alberta Mortgage and Housing Corporation whatever portion of the land may be necessary for development.

   c) Holding costs (i.e. survey, legal, interest, etc.) are added to the original land costs to determine the price to the municipality.

   d) Holding costs are prorated over the whole project. When any portion of the project is purchased, only the holding costs relating to that portion are paid at that time.

e) Buy-back periods vary from one to fifteen years.

f) Upon expiry of the agreement (15 years), all land remaining must be purchased by the municipality.

2. Land Development: Alberta Mortgage and Housing Corporation purchases and develops land under a development agreement with the municipality, in accordance with the following guidelines:

   a) Developed lots are sold to the municipality on a fully prepaid basis (i.e. all development costs are allocated in the purchase price of each lot).

   b) Prices of the lots also reflect a prorated portion of the holding costs.

   c) As a rule, the Corporation will develop only to the prevailing servicing standard of the municipality, with certain minimum standards to be observed in any case.

   d) In all cases, the municipality will be responsible for sales transactions.

   e) Upon expiry of the Development agreement, all unsold lots must be purchased by the municipality.

PROVINCIAL BUDGET	1984/85	1985/86
	$2,300,000	$1,000,000

Note: 1985/86 funds are for servicing only.

TIME FRAME -- This is an ongoing program of the Provincial Government.

FURTHER INFORMATION -- Municipalities approach AMHC or the Department of Tourism and Small Business for an explanation of the Program. Application procedures are outlined at a meeting with Tourism and Small Business, AMHC and the municipality.

b) Prices of the lots also reflect a prorated portion of the holding costs.

c) As a rule, the Corporation will develop only to the prevailing servicing standards of the municipality, with certain minimum standards to be observed in any case.

SENIOR CITIZEN LODGE PROGRAM

OBJECTIVES -- This program provides housing for senior citizens of Alberta who no longer wish to maintain an independent household. Lodges are located not only in cities, but also in rural areas so that senior citizens may remain in or near their own community.

ELIGIBILITY -- The sponsor for a lodge is the Municipal Foundation composed of participating municipalities in the area.

DESCRIPTION --This program is intended for senior citizens who are in good health and able to care for themselves. For this reason medical facilities are not provided in the building although home-care services may be available through local health units. The location of lodges is planned with good access to medical, transportation, shopping and recreational services. Rent, which is fixed at an affordable rate by the Provincial Government, covers meals and housekeeping services. Temporary accommodation is also available in lodges through the Vacation Relief or Respite Care Program.

After construction, the administrative and financial responsibility of each lodge is invested in the local Foundation. The management group selected by the Foundation hires the staff for the lodge, handles applications, selects tenants and manages daily operations.

FINANCING -- Alberta Mortgage and Housing Corporation finances 100% of the capital costs including all furnishings and equipment through funds provided by the Alberta Investment Division of the Alberta Heritage Savings Trust Fund. Once constructed, the Foundation becomes responsible for all operating costs.

Foundations may receive grants to help offset operating deficits through the Lodge Assistance Program.

PROVINCIAL BUDGET	1984/85	1985/86
	$5,500,000	$4,500,000

TIME FRAME -- This is an ongoing program of the Provincial Government.

DESCRIPTION -- A non-profit society must be registered under The Societies Act of Alberta, and may include church groups, service clubs and other organizations. The sponsor is responsible for collecting information on the need for self-contained units in their area and contacting the Alberta Mortgage and Housing Corporation. It is also responsible for the management and maintenance once the project is constructed. Individuals apply directly to the project for admittance.

Tenants must meet eligibility guidelines for acceptance. One year residency in Alberta immediately prior to application or ten years previous residency in Alberta is required. Allocation of units to tenants is priorized according to income, assets, housing condition and length of time on waiting list. Rent is based on 25% of a tenants income.

FINANCING -- Alberta Mortgage and Housing Corporation finances 100% of capital costs through funds provided by the Alberta Investment Division of the Alberta Heritage Savings Trust Fund. DESCRIPTION -- Any foundation or municipality applying for the Lodge Assistance Grant is required to submit an audited financial statement of the lodges operating costs to Alberta Mortgage and Housing Corporation. In addition, the foundation/municipality must complete an application showing the latest equalized assessments of all the contributing municipalities.

FINANCING -- Assistance is provided in the form of a grant from Alberta Mortgage and Housing Corporation. The amount of assistance is determined on the basis of the documented financial statements of the lodge and the latest equalized assessment of the foundation as follows:

This program will cover a portion of the foundation deficits in the form of a grant provided by Alberta Mortgage and Housing Corporation. The level of assistance is determined on the basis of the total equalized assessments of the foundation for the year in which the operating deficits occur.

Lodge assistance funding is calculated according to a graduated scale, depending on the mill rate, as determined by the foundation's deficit and equalized assessment. Funding ranges from 25% to 50% of the lodge foundation's operating deficits, but AMHC will not finance the portion of the deficits which is in excess of 35% of the foundation's total expenditures.

The Agreement which runs for five years will provide assistance in six areas: Tourism Facility and Product Development; Alpine Ski Facility Development; Market Development; Training and Professional Development; Industry and Community Support; and Opportunity Analysis and Evaluation.

The purpose and intent of the agreement is to provide a major boost to the tourism industry in Alberta.

OBJECTIVES

1.1 Canada and Alberta have agreed on the following objectives to guide programs and projects entered into under this Subsidiary Agreement:

(a) improve the quality of the tourism industry in the Province of Alberta to compete more effectively in the intra-provincial, inter-provincial and international tourism markets;

(e) to provide reinforced recognition of the international tourism appeal of the Alberta Canadian Rockies through enhanced development and marketing programs and in turn broaden and diversify tourism destinations, attractions and events in all parts of Alberta.

1.2 In addition, it is the objective of the parties that projects under this Agreement will include initiatives to:

(a) attract more tourists;

(b) lengthen the stay of tourists;

(c) maintain and expand existing tourism products, attractions and resorts;

(d) enhance the year-round appeal of Alberta as a tourism destination and address the problems of seasonality associated with the tourism industry in the Province;

(e) maintain and expand Alberta's appeal as an international ski destination together with other winter attractions, resorts and tourism products;

(f) maintain and improve the existing Provincial tourism plant through programs designed to upgrade, expand and develop the necessary infrastructures to reach the potential of growth;

This program is intended to initiate and support studies that are required to make informed decisions in the development and marketing of the Alberta destination and its facilities and products. Its primary objective is to identify and assess tourism development and market opportunities related to the programs which will be implemented through the Agreement.

GRANTS TO COUNTIES AND MUNICIPAL DISTRICTS

OBJECTIVES -- To assist the Counties and Municipal Districts with construction projects involving upgrading, gravelling, and paving with an aim to improve the road network to a standard that will satisfy the traffic demand and need.

ELIGIBILITY -- This program is available only to the Counties and Municipal Districts in Alberta.

DESCRIPTION -- Program allocations are calculated by formula. Factors considered in the calculation of grant money assigned to Counties and Municipal Districts on an annual basis involve population, equalized assessment, miles of opened road (including local and secondary roads less miles of paved roads) and a terrain factor that takes into account difficult construction problems. The District Transportation Engineer meets with each Council and reviews and approves the projects proposed for grant funding.

FINANCING -- The Department funds 100% of the approved projects up to the municipalities' formula eligibility. Once the grant projects are approved by the department, 100% of the grant funds are advanced in trust to the municipality via a Trust Agreement. Upon completion of the grant projects, the municipality must provide the department with certification and a summary report of the project expenditures.

	$25,087,600	$25,487,600	$27,487,600

The Department does not contribute toward the cost of maintaining crossings or automatic protection signals.

NORTHERN SUPPLEMENTARY FUND ASSISTANCE PROGRAM

OBJECTIVE -- To provide funding in northern Alberta for initiating or improving water and sewage facilities where, even with local revenues and other sources of income, the costs of projects are far in excess of the provincial norm.

ELIGIBILITY -- Available to municipalities within the jurisdiction of the Northern Alberta Development Council.

DESCRIPTION -- Preference will be given to communities with a demonstrated health problem, low tax base, and insufficient sources of other funds so as to render the project financially feasible.

Funding is approved in Alberta Utilities and Telecommunications' budget, with each annual allocation schedule approved by the Rural Development Cabinet Committee upon recommendation of an interdepartmental committee. The interdepartmental committee is chaired by the Northern Development Branch of the Northern Alberta Development Council under the Department of Tourism and Small Business. It is attended by the Departments of Utilities and Telecommunications, Environment, Municipal Affairs, Native Affairs, Advanced Education, Housing, and Energy and Natural Resources.

Under this program:

1. the interdepartmental committee recommends allocations for each fiscal year based on information received through the departments represented on the committee. Feasibility studies are of assistance in helping to allocate the funds.
2. The municipality applies for the grant after funding has been allocated in the budget for the applicable fiscal year.
3. Terms and conditions are attached to the grant allocation specifying its use and procedures to be taken if it is not used.

FINANCING -- The grant is paid in one installment for each fiscal allocation.

PROVINCIAL BUDGET

ALBERTA MUNICIPAL WATER SUPPLY AND SEWAGE TREATMENT GRANT PROGRAM

OBJECTIVES -- To assist municipalities with the capital cost of installing modern and adequate facilities for water supply and sewage treatment.

ELIGIBILITY -- Cities (under 100,000 in population), towns, villages, hamlets and summer villages established under the Municipal Government Act are eligible for assistance from this program. In addition, the Minister may require that the appropriate municipal grants be directed to the regional authority where it has been demonstrated that the implementation of a regional water and/or sewage scheme is the most cost-effective and environmentally sound proposal. Cooperatives are not eligible under this program and should refer their situation to the county, municipal district or improvement district in which they operate.

ELIGIBILITY OF PROJECT -- Water supply projects, such as water storage facilities, water treatment plants, wells, supply lines, and some transmission mains, are eligible for assistance. In a municipality without any existing water system, the distributions system is also eligible.

Sewage treatment facilities, some trunk sewers and outfall lines are eligible for grants, as is a sewer collection system if there was no previous system in the community.

Small projects, such as the addition of fluoridation or chlorination facilities, are also eligible.

The Department should be contacted for an assessment of project eligibility when undertaking any water or sewer project.

FINANCING -- The demand for financial assistance may exceed the available budget, and it is therefore stressed that this program will be administered on the basis of funding being provided only to projects as priorized by the Government of Alberta.

First-dollar sharing of costs was introduced in July 1983. Project costs are shared on a 75/25 provincial/municipal basis for the first 600 persons, and on a 50/50 basis for the population from 601 to 100,000. The grant calculations take into consideration the accumulated costs of projects which have received grants since the introduction of the program in April 1979. Municipalities receiving assistance from this grant program will be encouraged to support Alberta companies supplying goods and services to the waterworks and sewage industry.

Smaller communities often find the costs of their projects far exceeding the maximum grant available. To accommodate the smaller communities, the grants will now vary according to population.

The upper limit remains at $2,100 per capita for communities of 600 or more population. Communities of less than 600 population will be eligible for a proportionately larger grant. In this instance the formula is $2,100 + $5(600

- population) for the upper limit. For example, a community with a population of 300 would have an upper limit in the program of $2,100 + $5(600 - 300), or $3,600. Now all communities, regardless of size, will be reasonably assured of the opportunity of having affordable water and sewage systems.

The specific grants will be calculated by the Department of Utilities and Telecommunications in accordance with established priorities and criteria. Municipalities must not assume that a grant will be provided until such time as written confirmation of said grant is received from the Minister of Utilities and Telecommunications.

PROVINCIAL BUDGET	1985/86
	$40,000,000

TIME FRAME -- This assistance program was implemented on April 1, 1979 and is an ongoing program of the Provincial Government.

REGIONAL UTILITY PROGRAM

OBJECTIVES -- To provide cost-effective and environmentally acceptable water and sewage facilities jointly to two or more municipalities.

ELIGIBILITY -- The following criteria is used to establish eligibility under the Regional Utility Program:

1. The urban and rural municipalities serviced must be considered municipalities under the Municipal Government Act.
2. The development of regional systems should be more cost-effective and/or environmentally desirable than independent facilities.

FINANCING -- Assistance may be provided to municipalities in two ways:

1. Capital Projects

   The province initially provides funds for the project and oversees the total construction and management of the project. Once completed, the facilities are turned over to the municipalities, with the municipalities reimbursing the province for their share of the costs.

2. Grants

   The municipalities manage the implementation, design and construction of the project, with the funds being provided to the municipalities in the form of a grant. The grants are calculated on the same formula as used for the Alberta Municipal Water Supply and Sewage Treatment Grant Program.

PROVINCIAL BUDGET	1985/86
	$30,743,000

TIME FRAME -- This assistance program was implemented on April 1, 1979 and is an ongoing program of the Provincial Government.
